

COMING ATTRACTION FROM THE HEALTH AND WELLNESS MINISTRY

THE MEDICAL CLOSET

What is a Medical Closet?

The Medical Closet is a collection of used medical products that need a home.

Why have a Medical Closet?

The purpose of the Medical Closet is to be able to redistribute medical products in good condition to individuals needing the equipment on a temporary or permanent basis.

How will the ministry acquire the equipment?

The goal of the program is to have the equipment donated from individuals who no longer need or want the equipment. The equipment will then be stored in the basement of the Christ the King Rectory. The Health and Wellness Ministry members will manage the distribution of the equipment.

What is acceptable?

The type of equipment that is acceptable are devices to aid walking (canes, crutches, walkers, wheelchairs), bathroom equipment (commodes, shower chairs), unopened incontinence products (Chux pads, Depends) and assistive devices (grabbers, shoehorns, sock assist). If you think you have an item that would be useful then give us a call. We are not able to accept any electronic equipment or medications.

How can you help?

Contact Sue Kitzmiller at **330-630-2344** if you have equipment that you would like to donate to get the Medical Closet started.

When will the equipment be available to be distributed?

The ministry will need to evaluate the quality and amount of donated equipment. More information will follow in the church bulletin.
